

Plastic Surgeries of 24 patients performed at Sewa Sadan Hospital

Operated patients expressed gratitude to team of surgeons

Persons injured by electric shocks, burnt by LPG or stove fire, falling in boiling water, patients of cleft lips, flesh accumulated on eyes and ears are being operated in 4th free plastic surgery camp held at Sewa Sadan Eye Hospital. Surgeries are being performed by eminent plastic_surgeon Dr. Nicholas Chris Retson and his Nine member team from America. As many as 24 patients of these ailments have to far been operated in the camp. After surgeries ailing patients expressed about their physical agonies and social scoff. Ailing patients in future should not face more social and family ignorance, their names and identity is kept hidden.

Husna Bee

Husna Bee of Nateran vidisha was burnt by her husband ten years ago. She faced lot of atrocities in her in laws family. After this burning incidence her husband was sentenced to seven years jail. Later her father brought her to his home. In the year 2016 Husna bee came to Sewa Sadan and operated. Her chin was joined with her throat, so she was not able to raise her head. Surgery was successfully performed and chin was separated from throat. Husna bee told that her face was so frightening there fore children of her village did not attend her coaching class. Due to social ignorance no body came to her for stitching and sewing work. Her father is farm labourer and his income is meagre. After burning, her upper lids of eyes was also not closed, there fore while sleeping her eyes were also not being shut. After surgery of Husna Bee her father on seeing excellent free services of Sewa Sadan was very sentimental. He expressed that this is not mere a hospital in fact this is a home of almighty God. After surgery of Husna Bee her face is almost cleaned from burning scars and wounds. She hopes that now her student will join her coaching class and her sewing and stitching work will start.

Mukesh sen

Mukesh sen There was a lump of flesh on left eye of 45 years old Mukesh Sen since his birth. He is a resident of village Kamtada of Harda District. Due to this physical disorder he could not get marry. Mukesh always faced social ignorance and could not go to start his traditional business of hair cutting in the

village. There fore he was forced to become a farm labourer for his livelyhood. Once in the year 2001, he went for his treatment in a hospital based at Indore but could not successfully treated there. Ultimately on knowing about free plastic surgery camp, he came to Sewa Sadan where he was operated by American Dr. Nicholas Chris Retson. His lump of flesh is removed and now he expects that he can start his own hair cutting saloon and get marry.

Salma Bee

Salma Bee (changed name) was burnt on falling on a burning chullah of L.P.G. on this accident her face was scorched and mouth was virtually shut. Due to this deformity, she was not capable to eat her meals. Salma Bee resides at karond and her husband is a dialysis technician in a big hospital of Bhopal. Firstly, she has operated for her schorched parts of face in another hospital. Now she came to free camp for the surgery of opening of her mouth. This surgery have been successfully performed on her. She is now happy. Her husband Dildar Khan said that the quality of American Surgeon is excellent.

Sunny Boolchandani

Throat and neck of 15 years old boy Sunny Boolchandani was scorched on falling on a boiling water tub. He is a member of a poor family. Even though his parents underwent surgery of their son in a super speciality hospital. But they were not satisfied due to unsuccessful surgical procedures applied on their child. Sunny got infection after surgery, so again he was brought to the hospital where surgeons extracted skin from his thighs and implanted on infected parts but that effort was also went in vain. Ultimetally the patient came to the Sewa Sadan Eye Hospital in camps of 2019-2020 where his surgeries was successfully performed and the family are very happy. Mother of ailing boy smt. Pooja expressed her gratitude for the services of SSEH.

Kaajal Gautam

Kaajal Gautam resident of Aazamgarh Bihar also came here for surgery. She is poor, her parents were not capable to get treatment in any private health organization. Kaajal is now operated here free of cast. Her deformity of neck and arm is opened and parents are happy because they expects that their daughter would now be able to performe normal activities of life at her own.
